Providing payroll and tax compliance in Saudi Arabia & Oman

About the company (Client):

A leading networking solutions provider across countries who assist in transitioning businesses to the online platform and solutions for both public and private data enterprises were looking for to expand their operations in the Saudi Arabia and Oman. The primary operations of the company is to assist the companies to embrace and adapt the current IP infrastructures of the market.

Issues:

The client was looking for a comprehensive solution provider with presence across the jurisdictions of Oman, Kingdom of Saudi Arabia (KSA), to handle their operations of Payroll and Tax Compliance. The company was facing the issues of inflexibility, service below standards and absence of continuity from the current service providers. They were seeking a reliable service provider who was updated with the knowledge of compliance and had professionals familiar with the local at the same time they were to possess the knowledge of international accounting systems.

Solution:

IMC group professionals first assessed the current structure of Payroll and Tax Compliance and isolated the areas that needed concentration. Our experts across the jurisdictions of Oman and Kingdom of Saudi Arabia (KSA), singled out the outdated models and revamped them according to the current compliance standards. IMC group revamped the whole operational model to suit the compliance requirements of Oman. These protocols were informed in detail to the parent company who enlisted the help of our experts present in all the jurisdictions to align the company with the business and operation model of the parent company while staying compliant with the local laws of the country. We coordinated with the other branches and brought forth a complete system that is in sync with the local legislation.
