## **Case Study 4: UK Management Consulting**

### **Case Overview**

The client is a UK based management consulting and strategic advisory group focusing its services on the maritime, offshore and marine infrastructure markets. Some of their core services include maritime management consulting, maritime education, venture development and business development services.

With an aim to expand its global network and become a leading maritime strategic advisory services provider, the client aims to set up a company in Singapore. Singapore being an international maritime center, offers great business opportunities. Singapore is strategically located at the crossroads of international trade routes in the heart of Asia which provides businesses advantages of geographical location. Moreover, Singapore attracts international maritime businesses through its extensive network of marine and port services. Incorporating a company in Singapore will give the client an opportunity to explore the Asian markets with greater ease.

Therefore the client is looking for Singapore company formation with an aim to cater to Asian markets. In order to set up their business in Singapore, the client approached IMC Group.

### **Solution Provided by IMC Group**

- ) Singapore company incorporation
- ) Company set-up
- ) Accounting, taxation and related corporate services
- ) Employment visa assistance

IMC Group assisted the client in company incorporation in Singapore. Within just 2 days, we ensured that the company is ready to function. We helped the client in selecting the most suitable business structure and helped them in getting the necessary permits and licenses to begin operations.

We also offered other services like assisting the client in getting an employment visa for their employees. We closely worked with Ministry Of Manpower (MOM) in order to ensure all the requirements were met before we made an application for Singapore Work Permit or Singapore Work Visa.

Apart from this, we also helped our client with accounting, taxation and related corporate services. Our experienced and expert professionals ensured that all the accounting and statutory requirements are duly complied to and are in accordance with the Singapore Companies Act, ACRA and IRAS.

With a dedicated and reliable team working on toes, we could help our client smoothly incorporate a company in Singapore.
